

SCMYUGA

Redefining the era of Digital Supply Chain

INDIA | GERMANY

About Us

Established in 2019 in India with offices in Bengaluru and Düsseldorf

SAP Silver Partner for APJ region

SCM YUGA is a technology consulting firm specializing in Digital Supply Chain. We help businesses across industries drive logistics and transportation efficiency through tailored SAP implementations.

What We Do:

- Implement and customize SAP solutions for supply chain transformation
- Serve industries like Manufacturing, Freight Forwarding, NVOCC, Oil & Gas, and Distribution
- SAP Silver Partner (APJ) with growing presence in Europe
- Build and commercialize apps rapidly using SAP intelligent platforms

We Deliver Expertise In:

SAP TM

SAP EWM

SAP BN4L

SAP BTP

Leaders

Mr. Sunil Gowda

Founder & CEO,
SCM YUGA Technologies Pvt. Ltd.

Sunil comes with expertise in SAP TM, technical architecture, and in-depth knowledge of transportation business processes, in multi-modal process scenarios. At SCM YUGA , Sunil is shaping the strategy, positioning and go-to-market of SCM YUGA worldwide, ensuring set-up for success.

Mr. Harikrishnan M S

Co-Founder & COO,
SCM YUGA Technologies Pvt. Ltd.

Hari, an IIMB alumnus, brings over a decade of experience as a solution architect in system design, development and delivery of complex projects and high-performance solutions in Shipper/ LSP and Group Logistics scenarios in SAP TM. Hari is leading the growth, marketing and people strategies at SCM YUGA.

Mr. Akshay Rao

Co-Founder & CEO,
SCM YUGA GmbH

Akshay has excelled as an SAP solution architect, mastering various SAP modules. His deep technical knowledge, process know-how and strategic vision have been instrumental in designing and implementing robust, scalable solutions tailored to meet the unique needs of diverse businesses.

Technology Services

Building futuristic global supply chain solutions using SAP products.

Consulting

With deep understanding of industry standards, SCMYUGA empowers you to strategize transportation supply chain planning. Built to enhance transparency and agility in your supply chain, our solutions help you navigate the volatile market in real-time.

Training

Custom, on-going corporate training programs for your team to maximize software adoption. Being the preferred partners of SAP APJ, our sterling training services are effective, curated with expert guidance to deliver maximum results in a short period.

Digital transformation

Empowering and future-proofing your logistics and/or supply chain business with the right technology solution. We believe in process driven, customer-centric progress. With rich experience, our scalable solutions are crafted to deliver rapid return on investment.

AMS

Optimize your SAP solutions and enhance the longevity of your legacy applications with our powerful Application Management Services. Transform your business infrastructure with the perfect AMS.

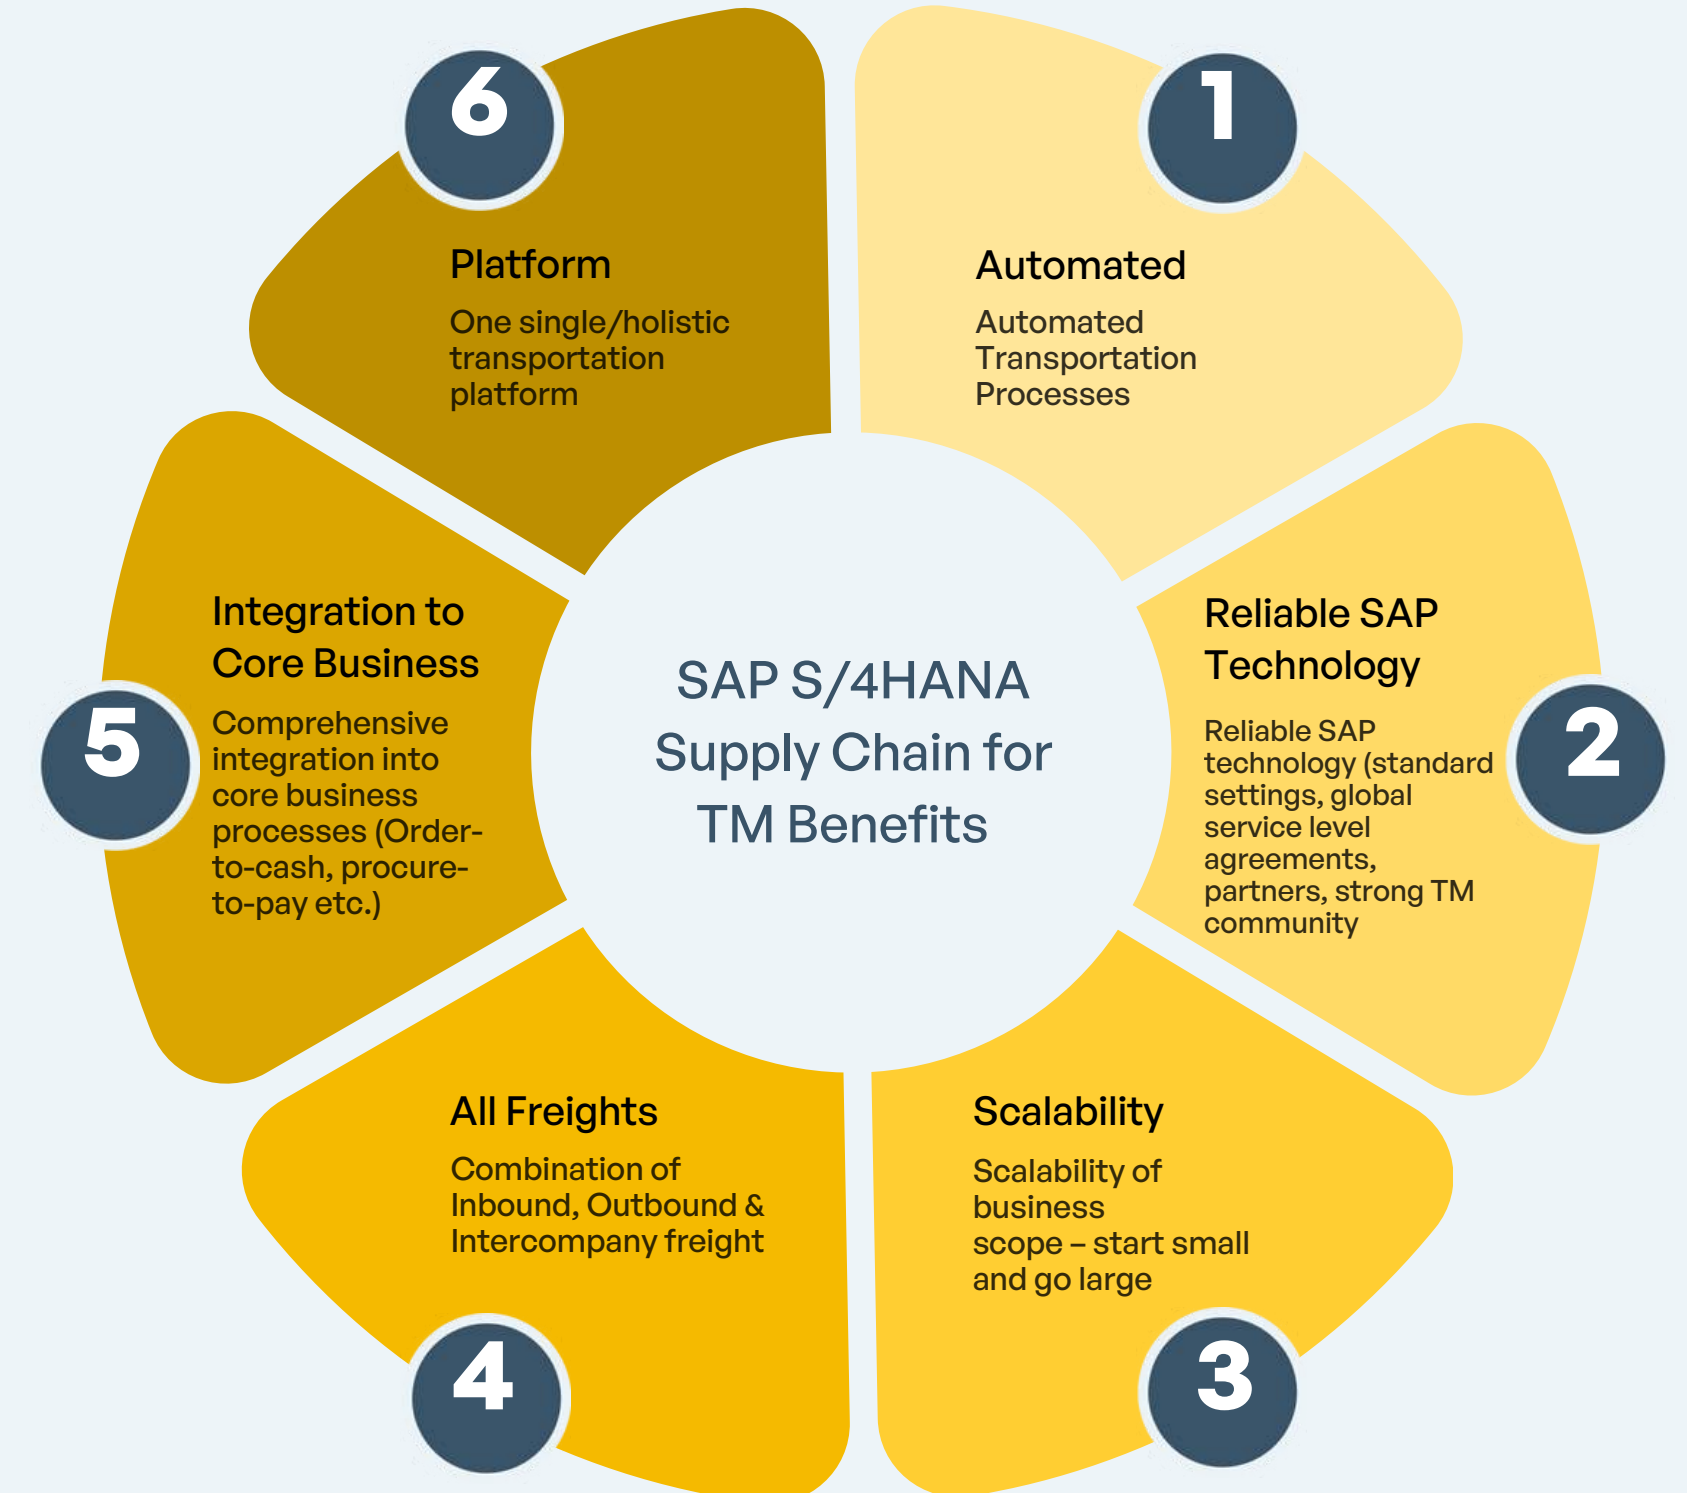

Solutions we provide through SAP products

SAP Transportation Management

Consolidate orders and maximize the return on your transportation costs. Forecast demand and shipment volumes accurately to fine-tune transportation planning. Enhance freight, fleet, and logistics management to gain real-time visibility into global transportation and domestic shipping across all transportation modes and industries

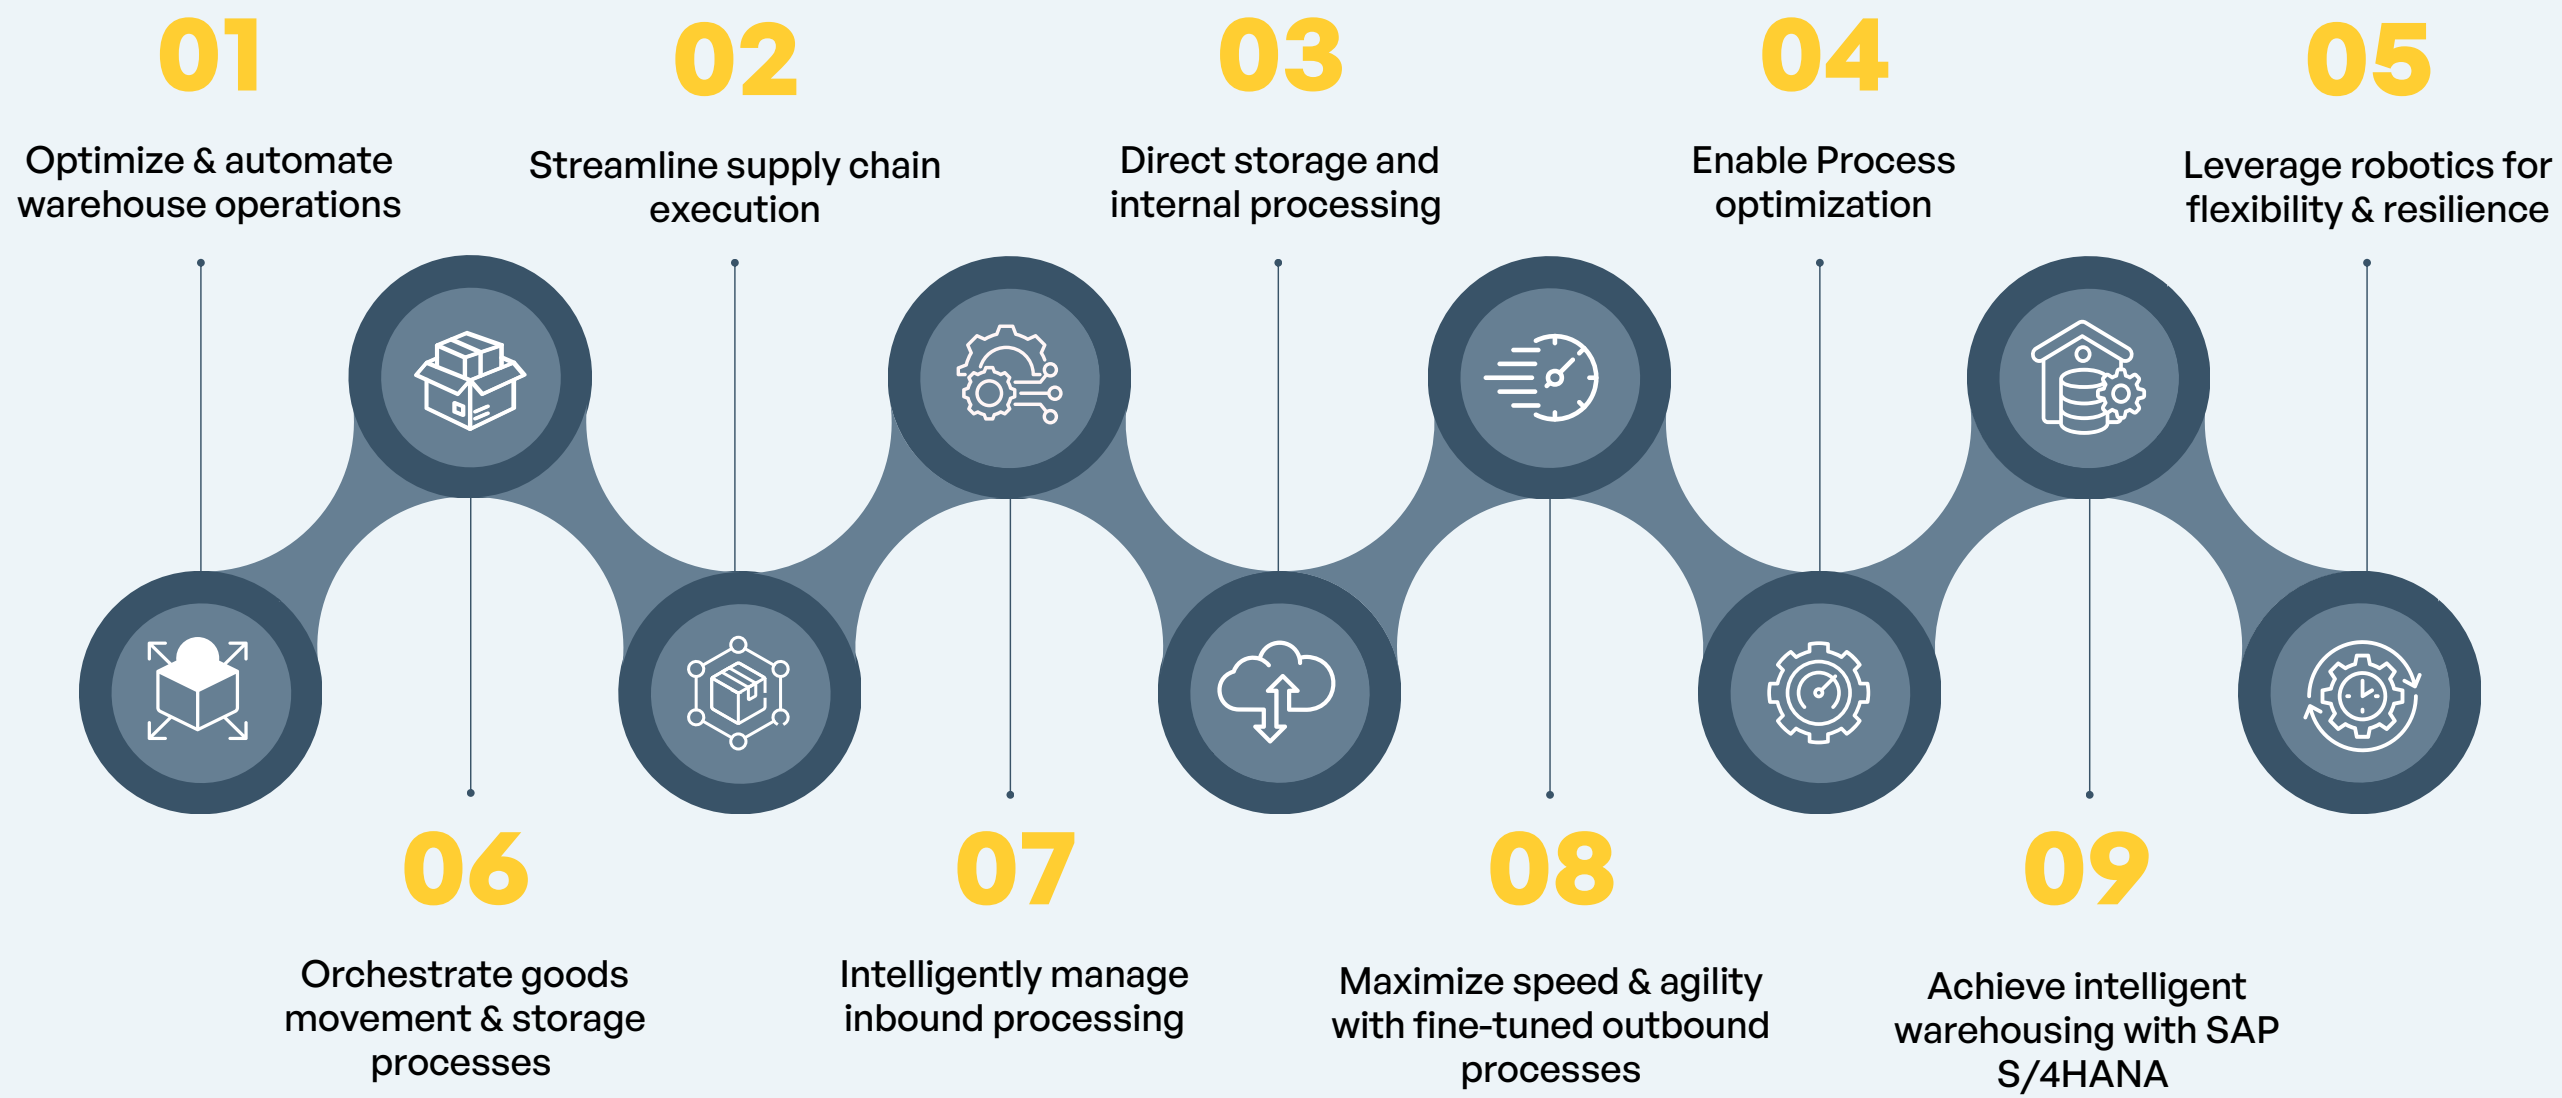

- On-premises and cloud deployment
- Transportation and demand planning
- Interactive freight tendering
- Collaboration portal or Business Network for Logistics

SAP Extended Warehouse Management

Sustainable & Risk resilient warehouse management

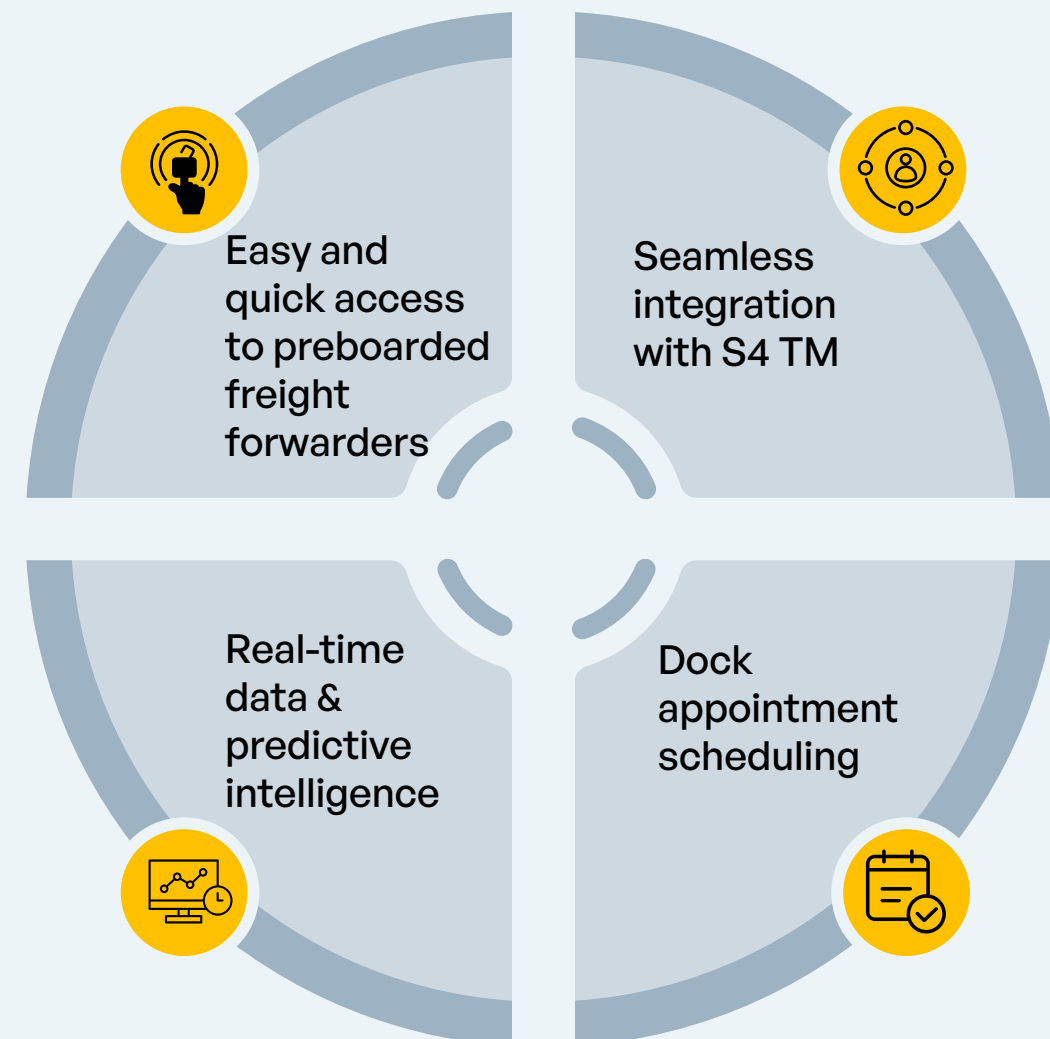

A fully integrated, comprehensive warehouse management logistics solution for superior warehouse and distribution center operations. SAP EWM empowers you with the right technology and the right tools to optimize business operations, improve transparency, and maximize fulfillment efficiency.

SAP Business Network for Logistics

Cloud network to maximize collaboration & transparency

SAP BNL is a cloud-solution based on SAP Business Technology Platform. Achieve streamlined logistics operations, automated settlement process, smooth and hassle-free collaborations, and reduce operational costs.

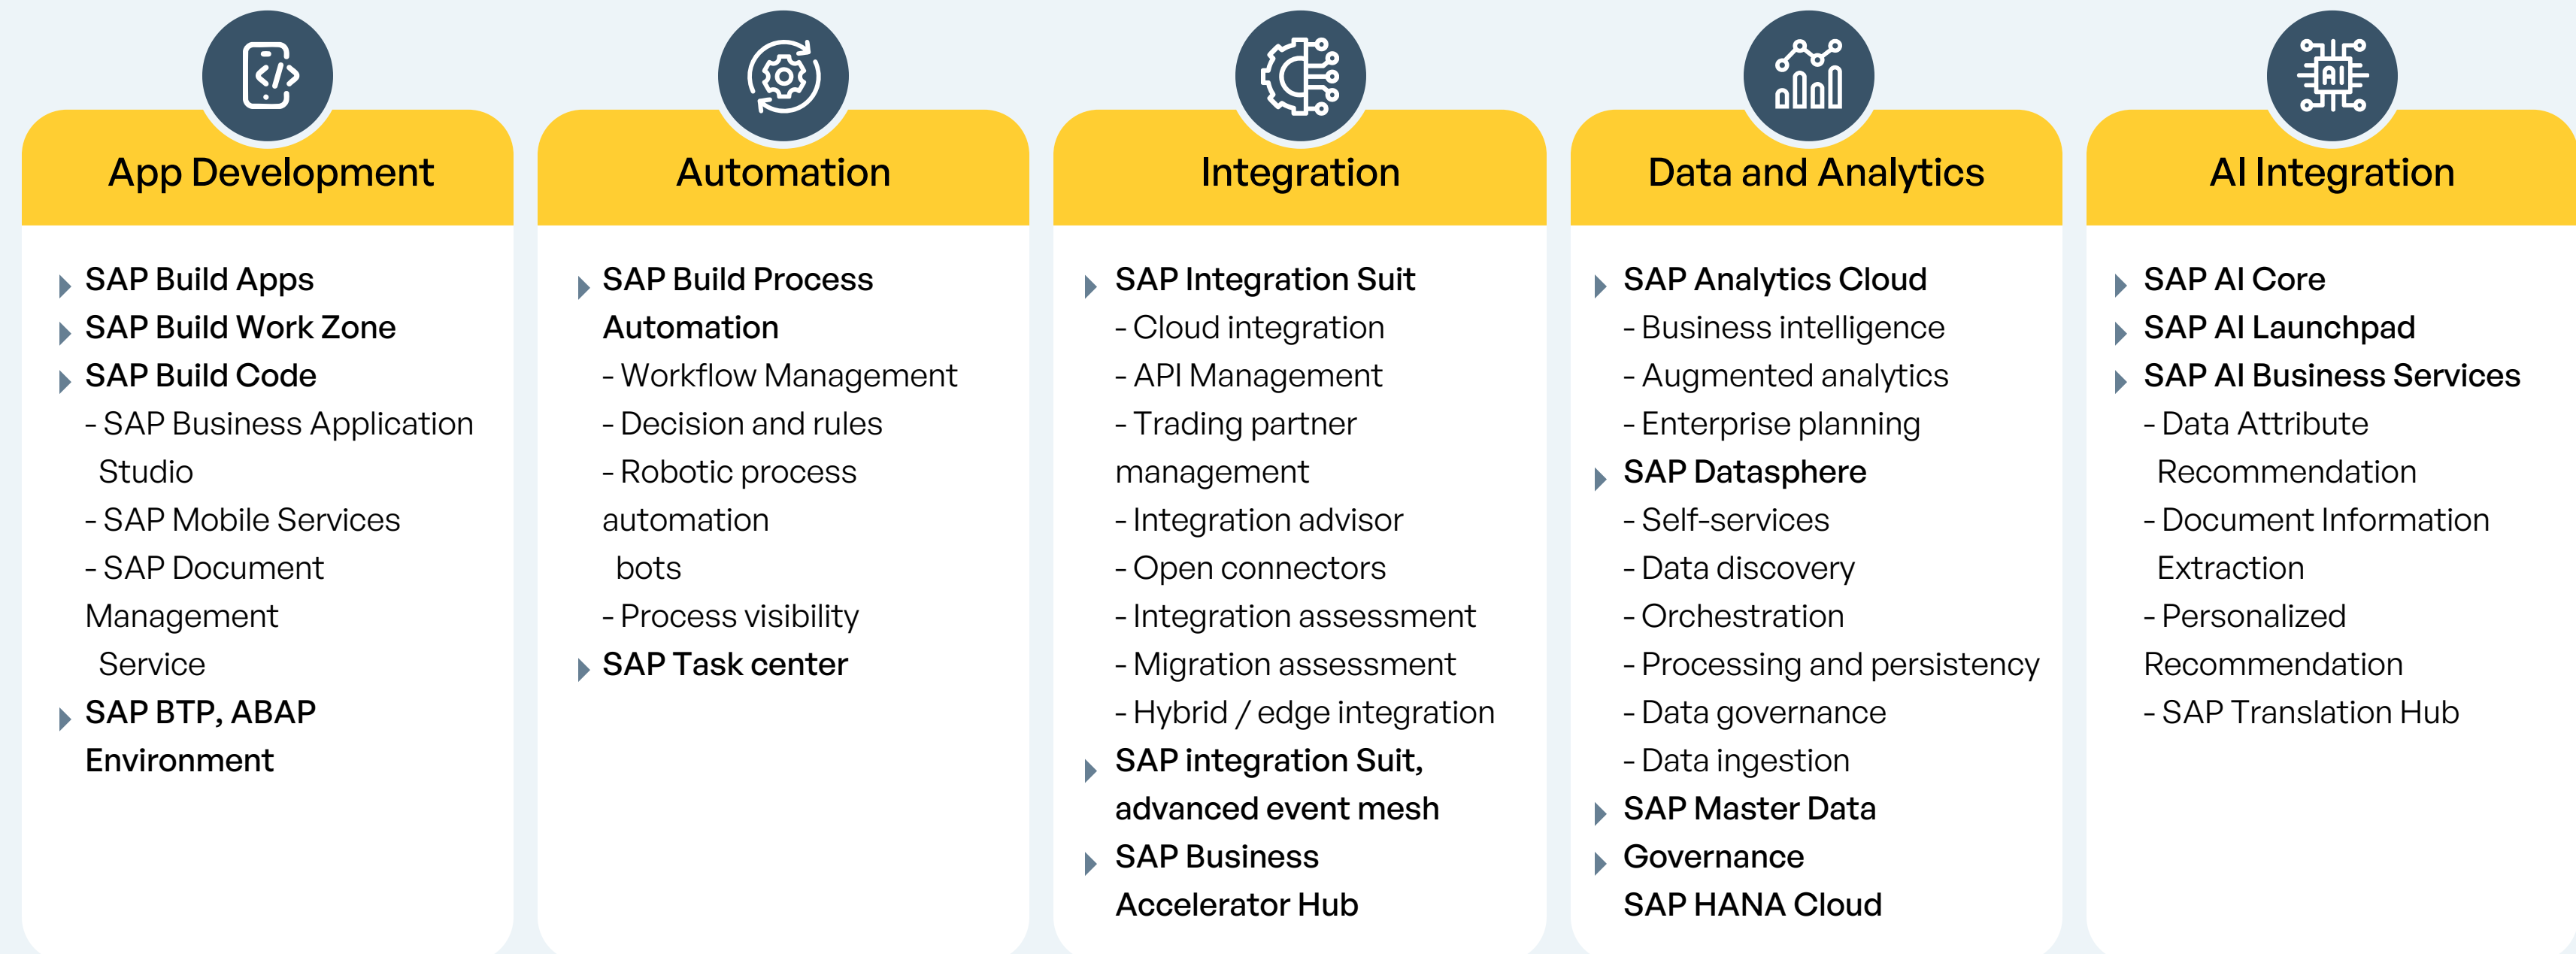

SAP BNL offers a comprehensive platform for collaboration with trading partners, driving supply chain agility. It serves as a single platform connecting all stakeholders, streamlining intercompany logistics, enabling material and goods traceability, offering complete process visibility.

SAP Business Technology Platform

Intelligent & Agile business transformation with SAP BTP

A unified, scalable platform designed for seamless integration, innovation, and automation. SAP BTP equips businesses with advanced tools to connect systems, harness data, and drive agility, enabling smarter decision-making and accelerated digital transformation.

Our Clients

S4 HANA TM/BNL GTT/P44 2021 Implementation

Industry – Oil & Gas

- Borouge is an Abu Dhabi-based petrochemicals company and a manufacturer of polyolefin solutions. It is a joint venture of the Abu Dhabi National Oil Company (ADNOC) and Borealis of Austria.
- SCM YUGA is partnering with UAE regional partner for S/4 HANA 2021 Transportation Management business transformation and implementation of BN4L GTT with integration with Project 44.
- Solution covers FCL and FTL international and domestic outbound movements with integration to Terminal Operating systems of Jebel Ali and Khalifa port.
- The project also aims to provide an SAP upgrade to version S4HANA 2021 which has been planned and is being executed in an integrated way within this timeline.

Impact

The Borouge Implementation is the first BNL GTT go-live in UAE region

The successful go-live of FCL tracking was done on March 15th, 2024

SCM YUGA is supporting Borouge with the implementation of BN4L Global Track and Trace, Project - 44, and building some RICEFWs in SAP TM.

SAP TM 9.6 Implementation

Industry – Oil & Gas

- SUPERGAS is the Indian Subsidiary of SHV Energy, Netherlands.
- As the global leader in LPG supply & solutions in India, SUPERGAS leads the pack in LPG services, sustainability, safety, D & I and innovation.
- SCM YUGA implemented SAP Transportation Management System in 9 Months of time. The Project was India's first SAP TM 9.6 implementation, that went live in December 2022 with rollout to 21 plants of SUPERGAS
- SAP TM 9.6 system is hosted on Microsoft Azure and integrated with TITO (Truck-in-Truck Out) and VTS (Vehicle Tracking System) – a Mobility
- Solution offered by Sensel Telematics for Vehicle Tracking.
- The vision of this engagement was to utilize TM optimizer for all regions for automated planning., as all the plants of SUPERGAS had their own ways in terms of Business Operation and Planning.

SCMYUGA Customer Success Story: SUPERGAS working Smarter with SAP Transportation Management

Impact **2%** Reduction in Freight Cost

50% Effort reduction in Planning & Execution of orders

3% Reduction in KMs travelled

DHL

- Deutsche Post DHL Group (DPDHL), the world's leading mail and logistics company started with DHL SmarTrucking, a TechLog company, with an aim to build a 10,000-strong IoT-enabled and temperature-controlled fully-owned fleet in India.
- SCM YUGA supported DHL SmarTrucking in the implementation of SAP Transportation Management and SAP Plant Maintenance .
- DHL SmarTrucking has implemented SAP TM as Core ERP Platform to run business operations and operating around 745 Smart Trucks.
- Implementation of SAP TMS was envisaged phase-wise; the first release went live in December 2018, 2nd Release in September 2019 and 3rd Release in December 2019 and SCMYUGA supported in Dev-ops model till 2021.
- SAP TM System is integrated with SAP ERP for Billing and Fleet Management, with IoT Solution T4U for real-time track and trace with the help of SAP EM; and with Mobility Solution Far Eye for Driver Apps and Operation Apps. System is also connected to SAP Fiori system for Operation Apps and MIS.

SCMYUGA Customer Success Story: SUPERGAS working Smarter with SAP Transportation Management

Impact »

30% Reduction in Billing Discrepancies and Payment Disputes

50% Faster Trip Creation and Placements on time improvement

200+ Customers' bill closing capability for detention amounts increasing revenue

Driven by performance

S4 HANA TM 2109 Implementation

Industry – Automotive

- Mahle GmbH is a German automotive parts manufacturer, is one of the largest automotive suppliers in the world and manufactures parts and systems for combustion engines, filtration, electrification, mechatronics, and thermal management.
- SCM YUGA is working in strategic partnership with Abeam consulting for SAP S/4 Hana TM Implementation/ Rollouts and Support.
- Inbound and Outbound Process Optimization: Our project emphasizes efficient planning and optimization of inbound and outbound logistics processes to enhance supply chain performance and responsiveness.
- EWM Integrations: We seamlessly integrate SAP Transportation Management (TM) with Extended Warehouse Management (EWM) solutions to streamline warehouse operations and improve overall logistics efficiency.
- SAP Business Network Freight Collaboration: Leveraging the SAP Business Network Freight Collaboration solution, we implement robust tendering processes and enable self-billing capabilities, ensuring transparency and efficiency in freight management.
